

Win or Lose

Foo Fighters

I'm hangin' around, I not puttin' down the state I'm in
I've never been proud, And now I'm allowed to shed my
skin

I'm driving away, I know if I stay I'll sit and spin.
Imagine the day, I'm drowning if they can reel me in
Pick up where I left off

Lets make a bet
We'll make a bargain and call this truce
Let's make a bet
I'm in loss and win or lose with you

I see it all now, I'm taking my bow in everything
Comes crashing around, Its getting too loud the space
I'm in

So now I can leave, two pieces of me some evidence
The one that relieves, the others disease like medicine
Pick up where I left off

Lets make a bet
We'll make a bargain and call this truce
Let's make a bet
I'm in loss and win or lose

Speakin' in tongues I can't get through
Think of runnin' but
I'm tired of runnin' into you
Speakin' in tongues the way I do
Found that you understand quite well
Cause that's your language too

I'm hangin' around, I'm not puttin' down the state I'm
in
In love with the sound, its gettin' too loud
