

Hi the captain says:
"Hello" for the last time
"We're goin' here and as you see
we're fading there
I'm not willing to satisfy your
small way of thinking,
cause my attitude
has changed and now
I'm right out of here"

But it makes me happy
Could have been the wrong one
but it makes me happy
I guess it's been the right one
But it makes me happy,
somehow it makes me sad
it makes me sad

"Hi", the captain says:
"Should have been so lucky,
but I was blind,
I couldn't see
the man on the man on the run
Yes I know you still believe
believe in what you're thinking
about me,
but I'm ok
just little bit afraid

But it makes me happy
Should have always run away
but it makes me happy
I guess it's been the right one
But it makes me happy,
somehow it makes me sad
it makes me sad
