

Hands So Red On A Face So Pale

For All Those Sleeping

So slow the snow it falls tonight
we are not innocent
i watch as beauty comes to life
be still embrace the moment
when all i see has turned to white
we are not innocent
time takes its time with us tonight
just breathe

bleed, like you mean it now
the tracks lead me to where you lay
in absence of light
tainted snow shines in the night
your bloodshed silhouette looks (you look lovely)
standing in your place i feel nothing

can i feel your touch tonight, cold as ice
come on baby, get your broken heart beatin'
come on baby get your broken heart beatin'

and over the horizon is where your last words echoed
so i ask you to say it again say it again say it

can you hold me close tonight im cold as ice
come on baby get your broken heart beatin'
come on baby get your broken heart beatin'
and i dont want to say goodbye tonight
come on baby get your empty lungs breathing
come on baby get your empty lungs

and over the horizon is where you gave your last breath
so i ask you to breathe again breathe
..take a deep breath honey

dont let this be our last goodbye

dont let this be our last
your the silence that ill hear forever
