

Changes

For the Fallen Dreams

There better be some changes
And it better happen today
Cause all the shit I see
There's got to be another way
We need some positive changes
There's been enough for the worst
You losers better watch your back
Because we're taking out the drunks first
When temptation, pressure come along
Just remember we're thousands strong
I've always been sincere,
For the scene is what I live
Get the fuck out,
If you have nothing positive to give
We need the kids who don't use that crutch
Put down that beer, is it asking too much?
I found the edge some nine years ago
I learned I don't need drugs
I learned to say no
It's all right to be different from your friends
Cause we'll always be there in the end!
