

Deep Down Inside

For the Fallen Dreams

When everything, and everything is falling down, you don't know
what to do

I can make it clear, if you make it sincere
Pick up the pieces your broken mirror
Forging your skin with a broken knife, ?
Give this a chance, give it all you got
Give us a chance, Give us a chance

Give it all you got, we've been given this chance
Nine lives, we've been given this chance
Give it all you got, and don't give in
Give it all you got, or don't pretend

Give it all you got, we've been given this chance
Nine lives, we've been given this chance
Give it all you got, and don't give in
Give it all you got, or don't pretend

I hope you never take steps backwards
All I hear is you want to move on with your life
All I want to do is move along now, so move along now

I hope you never take steps backwards
All I hear is you want to move on with your life
All I want to do is move along now, so move along now

You need to move forward with your life
You need to move forward with your life

Give it all you got, we've been given this chance
Nine lives, we've been given this chance
Give it all you got, and don't give in
Give it all you got, or don't pretend

Give it all you got, we've been given this chance
Nine lives, we've been given this chance
Give it all you got, and don't give in
Give it all you got, or don't pretend
