Eternity

Force of Evil

There is no one to blame Everybody is born to die And no one gets out alive You can't run from the devil Your faith won't save you in the end

They promise you Heaven and Hell Trying to break the spell Seven sins inside you and me Will I ever be set free

We are damned for eternity It's our destination We are struggling for survival In the paradise of pain We are damned for eternity Suffocation I can not breathe the air in here Is there no way out of here

Nations are burning Thousands are dying It gets worse every day I am an unbeliever The me God is pure illusion And we're all alone

They promise you Heaven and Hell Trying to break the spell Seven sins inside you and me Will I ever be set free

We are damned for eternity It's our destination We are struggling for survival In the paradise of pain We are damned for eternity Suffocation I can not breathe the air in here Is there no way out of here

We are damned for eternity It's our destination We are struggling for survival In the paradise of pain We are damned for eternity Suffocation I can not breathe the air in here Is there no way out of here
