

# The Calling

## Force of Evil

Coming from beyond, from deep down below  
The curse is on you everywhere you go  
Darkness to bring the demons to rise  
Bewitched by the damned, mankind's fall  
The final demise

Force, the Force of Evil  
The curse is coming your way  
The Force, the Force of Evil  
The curse, the calling

Enslaving the world with a deadly spell  
Claiming the throne, the hunters from Hell  
Up from the grave, united at last  
The horsemen return  
Awake the beast, a strike from the past

Force, the Force of Evil  
The curse is coming your way  
The Force, the Force of Evil  
The curse, the calling

Rise up, rise up  
The legions of the dead  
In Hell, in Hell  
We will meet again  
Rise up, rise up  
The legions of the dead  
In Hell, in Hell  
We will meet again

Coming from beyond, from deep down below  
The curse is on you everywhere you go  
Up from the grave, united at last  
The horsemen return  
Awake the beast, a strike from the past

Force, the Force of Evil  
The curse is coming your way  
The Force, the Force of Evil  
The curse, the calling

Come to get you  
It's the calling
