

## For These Shores

**Forefather**

Was a time when men they fought for kindred's cause, a struggle  
to survive  
But far beyond the native burghs I see they send our blood to d  
eath  
Is it to kill for greed, to find eternal peace or sow the seeds  
for war?  
This army is not for Folk and Fyrd, there is no peace beyond th  
ese shores

Fields of graves reveal courageous aims of brothers long time g  
one  
Should we live to see another cemetery for men who died but not  
for their own kin to feed?

For these shores  
For these shores

Fields of graves, futile slaves  
To distant wars, far beyond these shores
