## I Need You

Foreigner

Selling your soul ain't the right way of givin' Oh with you I could change This misguided goal I've been livin' Anything, anything, you might need or desire Just call on me, 'cause my heart's on fire And I need you Do you need me too? Yes I need you, yes I need you Many is the time I've cursed the Lord's creations Ah but you touched my hand I loved this new sensation It was very strange, what a change Of you I did not tire So call on me, my heart's on fire Well I need you Do you need me too? need me too? Yes I need you, ah Yes I need you Oh I need you And I need you Say you need me too Yes I need you Oh I need Say you need me too Yes I need you And I need you Oh I need Yes I need you Oh I need Say you need me too Say you need me too Say you need me too Say, say baby Say you need me too Yes I need you Oh I need you too And I need you
