Forever Slave

You understand it
You know my secrets
Come on, Come on

An email burns my soul
We wanna cross the line
You cast a spell on me
Our passion's on-line.

"You come, get undressed
Your silence leads me on
You're trying to control my mind
Do you want to be my teacher?"

Don't stop!

You undress my body while I
Lick your secrets
We're killing our loveliness,
We need to feel alive

Turn on your web cam
I feel you're hot
I see you are so hard
I need your passion now
You never stop!
Tonight, we were two lovers searching sex
Tonight, you'll be all for me I need you in me.

"You come, get undressed
Your silence leads me on
You're trying to control my mind
Do you want to be my teacher?"

Never stop!

"My baby, touch my body.
... Slowly... Slowly...
Kiss my lips... you never stop!
I'm so hot, I can't control... Fuck me!"

Tomorrow, we will have to forget
That was OK, our contract's at an end
Last night didn't exist
Come on, Come on
