

## Cross My Heart

Forever the Sickest Kids

I hate this town, gotta get outta here  
Got an eviction notice on my door  
My best friends think I'm hopeless and a loser  
I can't quit rolling dice  
I can't keep flirting with disaster  
While the years keep rolling faster

Cross my heart and hope  
When I die I won't die alone  
All I know is I gotta get outta here

All my life I've been running from my problems  
All my life I've been searching for something  
All my life I've been looking for direction  
All I know is I'm never gonna change my ways

I hate my job, I have no social life  
I use my check to pay my rent  
I've never seen a dime of it my friends  
They're never there for me  
They never show up to my shows  
I know they think my band's a joke

Cross my heart and hope  
When I die I won't die alone  
All I know is I gotta get outta here

All my life I've been running from my problems  
All my life I've been searching for something  
All my life I've been looking for direction  
All I know is I'm never gonna change my ways  
Never gonna change my ways

I've been trying to find myself  
I've been trying to find myself  
(I hate this town, gotta get outta here)  
I've been trying to find myself  
(I hate my job, I have no social life)

All my life I've been running from my problems  
All my life I've been searching for something  
All my life I've been looking for direction  
All I know is I'm never gonna change

All my life I've been running from my problems  
All my life I've been searching for something  
All my life I've been looking for direction  
All I know is I'm never gonna change my ways  
Never gonna change my ways
