

# My Friends Save Me

Forever the Sickest Kids

I say wisdom's wasted on the old  
Embrace mistakes and let it roll, whoa  
Do-do-do, do-do-do, do-do-do  
I used to think live fast die young  
When every ounce is spent I'm done, whoa  
Do-do-do, do-do-do, do-do-do

Overwhelming temptation has done me in,  
When I overcome it comes over again

My friends save me, they break my fall  
My judgement's hazy, when I hit the wall,  
If I come up short they help me stand tall  
There's nothing in this world that I can do  
That could save me like you  
Do-do-do, do-do-do, do-do-do...

I drove my life into the ground,  
The safety net has been cut down, oh no  
Do-do-do, do-do-do, do-do-do  
My reserves are all bone dry  
I've had my fill of humble pie, whoa  
Do-do-do, do-do-do, do-do-do

Overwhelming temptation has done me in,  
When I overcome it comes over again

My friends save me, they break my fall  
My judgement's hazy, when I hit the wall,  
If I come up short they help me stand tall  
There's nothing in this world that I can do  
That could save me like you

Overwhelming temptation has done me in,  
When I overcome it comes over again

My friends save me, they break my fall  
My judgement's hazy, when I'm against the wall,  
If I come up short they help me stand tall  
There's nothing in this world that I can do  
That could save me like...

My friends save me, they break my fall  
My judgement's hazy, when I'm against the wall,  
If I come up short they help me stand tall  
There's nothing in this world that I can do  
That could save me like you
