

Phone Call

Forever the Sickest Kids

Well I'm just a fool for you and I think I'm going crazy
I can't control myself or contain my thoughts inside
It's eating me up inside
And now I see everything a little more clearly
The bad outweighs the good things
Was this ever a good thing for me oh
Was this ever a good thing for me oh

You're just a phone call away
Everyday you seem further away
You're just a phone call away
I'm doin my best to put my pride aside and apologize
Cut myself a notch and
Everyday you seem further away
I know I said some things that hurt
It took 97 missed calls to finally get over you

All I, all I really wanted was a good job
A nine to five never seemed to cut it
I was too wrapped up in her to be working like that
Soon you'll see that everything will work out for me
So keep your promises you promised to me oh yeah

You're just a phone call away
Everyday you seem further away
You're just a phone call away
I'm doin my best to put my pride aside and apologize and
Cut myself a notch and
Everyday you seem further away
I know I said some things that hurt
It took 97 missed calls to finally get over you

You're takin' me places I've never been
You're feelin' me out and I'm fillin you in
What's more important saving yourself or letting me in?
What's more important?
What's more important?
What's more important?
Saving yourself or letting me in?

You're just a phone call away
Everyday you seem further away
You're just a phone call away
I'm doin my best to put my pride aside and apologize and
Cut myself a notch and
Everyday you seem further away
I know I said some things that hurt
It took 97 missed calls to finally get over you
