

Under Saturn Retrograde Part I

Forgotten Tomb

Drifting through black waters
Our skies are rotting everlasting

Ill souls domain
Catalyst of pain
Born under a bad star
A place where no joy remains

Spawn of Saturn
Fuck life - we're under Saturn retrograde

Deathwish for the uplifted
Your hopes are drowning all the way down

Destination: nothingness
A place where no tomorrow exists
When you thought the worst has come
You was fucking wrong

Ill souls domain
Catalyst of pain
Born under a bad star
A place where no joy remains

Spawn of Saturn
Fuck life - we're under Saturn retrograde.
