

## Static Space Lover

Foster the People

A circuit lightning  
You glisten back  
It started shifts, started shift of love  
One morning I did try  
To call him by his name  
But my men didn't know when to come around

How long, how long will we try to make it together  
It's too long, it's too long, we could die, just hanging here forever  
Hold on, hold on we'll get by as static space lovers  
And we'll be fine circling each other

We're placing bets, saying "praise the Lord"  
Just at eclipse, leave me wanting more  
Well don't float too far  
'Cause I won't live without your constellation  
Reach out my love  
'Cause I can't hold on forever

I'll try  
And we'll never have to say goodbye

How long, how long will we try to make it together  
It's too long, it's too long, we could die, just hanging here forever  
Hold on, hold on we'll get by as static space lovers  
And we'll be fine circling each other

It's too long, too long, we could die, just hanging here forever  
Hold on, hold on and we'll get by as static space lovers  
And we'll be fine circling each other
