

Planet of Weed

Fountains of Wayne

I've got everything I need
Here on the Planet of Weed
There's not much going on
But it's just my speed
There's no hatred and no greed
Here on the Planet of Weed
Everyone gets along
It's quite pleasant indeed

Oh baby baby
Won't you come with me
Set your mind at ease
Set your spirit free
What a wonderful life we could lead I
Together
On the Planet of Weed

We've got magazines to read
We've got Doritos to eat
So lay back on the couch
And kick up your feet
There's a movie on TV
I've been meaning to see
It's by Oliver Stone

Oh baby baby
Won't you come with me
Set your mind at ease
Set your spirit free
What a wonderful life we could lead
Together
Forever
Life is better
On the Planet of Weed
