

Dark Sky

Four Star Mary

fall out
fall out days
call out
call out my name

far down
far down low
our sound
our sound implodes

i want to' see you just a little
when you throw me to the floor
but don't you leave me in the middle
until i beg for more

dark sky
dark sky grey
mark my
mark my grave

i want to' see you just a little
when you throw me to the floor
but don't you leave me in the middle
until i beg for more
