

Dilate

Four Star Mary

When I see your face my eyes just dilate

I suffer whenever you're around counting the days until I get t
he nerve to sound what we believe

When I see your face my eyes just dilate
But I can't erase that I wanna violate

Move to another place
I gotta find a way to have you

When I see your face
My eyes just dilate
But I can't erase
That I want to violate
Every bit and everything and
Every part of you
I've suffered enough
It's killing me
I've suffered enough
What have I seen?
What have I seen?

When I see your face
My eyes just dilate
But I can't erase
That I want to violate
Every bit and everything and
Every part of you
Every bit and everything and
Every part of you
I've suffered
I've suffered
Its killing me
I've suffered
I've suffered
Its killing me
