

Fate

Four Star Mary

Time is healing
I'm ahead
Find a reason once again
Take a moment out of time
I'll be standing back behind
On a wing
So out of line
Taken in
So out of time
All it takes is living
I want to fly
I've never known fate
I've never known your name
I've never known fate
Sound the season
In my head
I'll be better off again
Rather die this evening
You would never know
Up ahead and far below
On a wing
So out of line
Taken in
So out of time
All it takes is living
I want to fly
I've never known fate
I've never known your name
I've never known fate
Someone take me home
Get me out of here
Someone take me home
Get me out of here
Someone take me home
Get me out of here
Someone take me home
Get me out of here
Oh, Oh
Get me out of here
Oh, Oh
Get me out of here
