## Fate

Time is healing I'm ahead Find a reason once again Take a moment out of time I'll be standing back behind On a wing So out of line Taken in So out of time All it takes is living I want to fly I've never known fate I've never known your name I've never known fate Sound the season In my head I'll be better off again Rather die this evening You would never know Up ahead and far below On a wing So out of line Taken in So out of time All it takes is living I want to fly I've never known fate I've never known your name I've never known fate Someone take me home Get me out of here Someone take me home Get me out of here Someone take me home Get me out of here Someone take me home Get me out of here Oh, Oh Get me out of here Oh, Oh Get me out of here
