

Never Mind

Four Star Mary

You could send me a saviour
That lives 'til the end of time
Promise the heavens
But that only leaves me dry
too many saviours
Fuck with me
I won't die
I've never cried
But I needed more from you
I've found my life
Without you now
and I'd never mind
I'm only half as blind
'cause I needed more
From you
you say my reflection
Never fades from your eyes
Could change my direction
But what I feel can't
Disguise my reflection
crushing me
I won't die
I've never cried
But I needed more from you
I've found my life
Without you now
and I'd never mind
I'm only half as blind
'cause I needed more
From you
