

## Just Drive

## Four Year Strong

We live in a time bomb that's ticking down  
The red and green wires have faded to brown  
There's no way of knowing if we'll survive  
But 'til we hit zero I'm going to try

It could all end tomorrow  
so let's live it up tonight

Just drive!  
Time is waiting race the light  
They'll read about us when we die  
Don't stop for anything tonight  
The world is ending so just drive

I'm not one for luck or circumstance  
I know that I won't get a second chance  
I never was one to hold my tongue  
But sometimes my brain doesn't give me one

It could all end tomorrow  
so let's live it up tonight

Just drive!  
Time is waiting race the light  
They'll read about us when we die  
Don't stop for anything tonight  
The world is ending so just drive

oh woah, oh woah, oh oh oh oh  
oh woah, oh woah, oh oh oh oh  
oh woah, oh woah, oh woah, oh woah  
oh woah, oh woah, oh

Just drive!  
Time is waiting race the light  
They'll read about us when we die  
Don't stop for anything tonight  
The world is ending so just drive
