

## The Pedestrian

Foxboro Hot Tubs

I don't need a reason to be a misfit  
Whatever the reason, how far Iâ€™ll go  
When it's my time then I will let you know

It don't take a genius to be an idiot  
It don't take a Jesus to save my soul  
Well it's my time and it's my time to go

Pedestrian is what I am  
I'm an understated Samaritan  
Where I go, I go alone  
As long as I am taking my time

I don't know the answer to be specific  
I listen to reason if the reason is true  
I take my time, well, now it's time to go

Pedestrian is what I am  
An understated samaritan  
Where I go, I go alone  
As long as I am taking my time

I don't know the answer to be specific  
I listen to reason if the reason is true  
I take my time, well, now it's time to go  
I take my time, well, now it's time to go  
I take my time, well, now it's time to go
