

# Shaking Heads

Foxes

Shaking heads and dreamless people  
Need to know if I can let go  
Color blind 'cos now we're too close  
And I cry but there's no use

On the back of an endless night  
Flying under loveless skies  
And if I turn around, there'll be no light  
I know the danger but it's alright

Pick up the light, leave it darling  
You know that I can tell  
Pick up the light, leave it darling

We are young, we're foolish to the night  
We just gotta get through this  
The loneliest heights  
Falling fearless, so young, so foolish

We left no bones, we left no traces  
Surreal sleeps and we weren't waking  
Coming back and we can't shake it  
Please ignite these endless skies

Pick up the light, leave it darling  
You know that I can tell  
Pick up the light, leave it darling

We are young, we're foolish to the night  
We just gotta get through this  
The loneliest heights  
Falling fearless, so young, so foolish

Pick up the light, leave it darling  
Pick up the light, leave it darling  
Pick up the light, leave it darling  
Pick up the light, leave it darling

I'm going, I'm going  
I'm going, I'm going  
Oh, I'm going, I'm going  
I'm going, I'm going

We are young, we're foolish to the night  
We just gotta get through this  
The loneliest heights  
Falling fearless, so young, so foolish

We've got no care  
All we see is blurred-out faces  
All we see is blurred-out faces  
All we see is blurred-out faces

(Pick up the light, pick up the light)  
(The light, wake up, wake up)
