

# Holy Touch

Foxy Shazam

There was a time when I used to care  
I had a heart man, something was there  
I didn't know it then but now  
that it's gone the fire died

Heal me with your holy touch  
Heal me with your holy touch,  
oh baby  
Heal me with your holy, kick  
down the door and hold me  
Heal me with you holy touch

There was a line that I used to walk  
I used to cross it just to get them to talk  
But I'd regret it if I did or not  
cause I hate both sides

Heal me with your holy touch  
Heal me with your holy touch,  
oh baby  
Heal me with your holy, kick  
down the door and hold me  
Heal me with you holy touch

Now I'm just sitting here crying  
The fire is dying
