

(It's) Too Late Baby

Foxy Shazam

When we were young I played
the cowboy
And you were my beauty queen
I loved you then, I love you now baby
But this time it's the real thing
There's a way about you that turns me on
There's a way about you that
just keeps me going

But now it's too late baby
There's no place left to go
I said it's too late baby
No, No, No

The stories over, the curtains closing
We take our final bow
Once the hottest ticket around
The seats are all empty now
There's still a way about you
that just turns me on
There's a way about that
just keeps me going

It's too late baby
There's no place left to go
I said it's too late baby
No, No, NO
