

## **(It's) Too Late Baby**

**Foxy Shazam**

When we were young I played  
the cowboy  
And you were my beauty queen  
I loved you then, I love you now baby  
But this time it's the real thing  
There's a way about you that turns me on  
There's a way about you that  
just keeps me going

But now it's too late baby  
There's no place left to go  
I said it's too late baby  
No, No, No

The stories over, the curtains closing  
We take our final bow  
Once the hottest ticket around  
The seats are all empty now  
There's still a way about you  
that just turns me on  
There's a way about that  
just keeps me going

It's too late baby  
There's no place left to go  
I said it's too late baby  
No, No, NO
