Oh No 2

Foxygen

Standing on the moon, I saw you, love Do you think we'll be somebody? Just standing all alone right in front of me Do you think we'll see? La, la, la, la

Oh no I'm not one for love nowadays But anyway I see your face is so fake Justin is on the phone Right in front of me Do you think we'll be? La, la, la, la,

(I was standing on the bed (On the bed) Birds were landing on my head (Aaaa) Even though it's just a dream (Just a dream) I still don't know what it means)

Oh no...

If you believe in love Everything you see is love So try to be what God wants you to be And say that "I love you" again
