

You & I

Foxygen

If it's better in the know
How come we do it again?
If you don't love me anymore
How come you never say it to my face?

I saw you coming so I looked okay
But now I'm all strung out
I saw you in town and I thought you were gone
But now I'm on a train

You and I will always be here

Yes, and I don't even know
Who you've been hangin' around
Yes, and I don't even wanna know
Who you've been hangin' around

You and I will always be here in love

Why doesn't anybody help me?
Why doesn't anybody care?
Why doesn't anybody love me?
Why doesn't anybody care?
