

Belfast Is Born Again

Foy Vance

If there's something I can do
Need only ask me
You helped me now I'll help you
The way it should be

And as I walk along these streets
The ones that once forsaken the people that I meet
I see a light awaken

Nothing much has changed
It's mostly still the same
Cold sun shines through rain
Yet Belfast is born again

The guns that no longer fit
Echo in history
We've no time now for that shit
The way it should be

And as I look upon the crowds
New hope takes over in me and I feel sure and proud
This hope lives on inside me

Nothing much has changed
It's mostly still the same
Cold sun shines through rain
Yet Belfast is born again

Nothing much has changed
Mostly still the same
Cold sun shines through rain
And yet Belfast is born again
