

Pull Me Through

Foy Vance

Searching for something
When I discovered you
You fill me up with fire
And I crashed on the rocks of desire
And you picked me up
With your hand
And made me feel like a man
It's simple but oh so true
And all this when I met you

When I was cold
And feeling shot through
With heartache I was naked
And then I fell true
But just as I was drowning
And blue
You pull me through
You pull me through

I'm discovering in this life
It's not clear what's wrong and what's
right
And though I make wondrous designs
Small foxes spoil the vines

When I was cold
And feeling shot through
With heartache I was naked
Then I fell true
Just as I was drowning
And blue
You pull me through
You pull me through

One day I'll pass from this life
And I'll feel of peace inside
If with the last breath I drew
My eyes could rest on you

When I was cold
Feeling shot through
With heartache I was naked
Then I fell true
And just as I was drowning
And blue
You pull me through
You pull me through
Oh you pull me through
You pull me through
