

Something In The Water

Foy Vance

We sat beneath the amber tree
The sun shone upon your feet
There were nowhere left to go,
Nothing more than I can show you.
You felt the stream on your golden feet
The cool water made you feel you so completed
On the mountain tops we saw the snow
And the felt the energy changing the flow
And you said:
I feel the water under my feet
Feeling water make me complete
I feel the water under my feet
Feeling water make me complete
The water cold and the summer's deep
Your depth right from my head down to our heels
And the fresh beeneath this shore?
And a million years began to roll?
And you said:
I feel the water under my feet
Feeling water make me complete
I feel the water under my feet
Feeling water make me complete
