

# Everytime You Need Me

Fragma

Everytime you need me  
You know I will be there  
You know I really care  
Say you will  
Say you dare

An inner feeling comes around  
Let it sparkle and let it shine  
Let it lift you off the ground  
Make it last, baby make it mine

You are the sun that rises  
You are the moon that lights at night  
You are what paralyses me

Everytime you need me  
You know I will be there  
You know I really care  
Say you will  
Say you dare

Everytime you need me  
You know I will be there  
A love beyond compare  
Say you will  
Say you care

Write my name into the sky  
And keep the memories in your heart  
Let the hours pass us by  
I guess that this is a way to start

You are full of surprises  
You are a fire burning bright  
You are what mesmerises me

Everytime you need me  
You know I will be there  
You know I really care  
Say you will  
Say you dare

Everytime you need me  
You know I will be there  
A love beyond compare  
Say you will  
Say you care

Say you dare...  
Say you will...  
Say you dare.....  
No no, no no

Everytime you need me  
You know I will be there  
You know I really care  
Say you will  
Say you dare  
Everytime you need me

You know I will be there  
A love beyond compare  
Say you will  
Say you care
