

Memory

Fragma

That look on your face
You're breathing at night
I'm counting the days
and the tears that I cry

You said that you love me
Every word is a lie
I wanted you near me
And now it's goodbye

I'm feeling so deep
I'm feeling so wrong
You better believe me
That love's made me strong

The way you deceived me
I've gotta move on
Now that you're gone
It's only...

Memory, memory, memory
It's all over the top now
Memory, memory, memory
And I need it to stop now

It's only...
Memory, memory, memory
It's all over the top now
Memory, memory, memory
And I need it to stop now

Oh yeah

A moment together
Is an hour alone
A change of direct
Means that I'm at fault

One second of hope
Is a week of regret
The curse of the mind
Is that it never forgets

I'm feeling so deep
I'm feeling so wrong
You better believe me
That love's made me strong

The way you deceived me
I've gotta move on
Now that you're gone
It's only...

Memory, memory, memory
It's all over the top now
Memory, memory, memory
And I need it to stop now
