

# I Care

Frances

I don't wanna give up  
Cause I don't wanna let you down  
How can I give my love  
To everything I've dreamed about  
Coming from a small town  
Everything is big to me  
I guess I'm on the way now  
But so much left to see

What gave you-ou-ou  
Let's make it come true

Everytime the lights go down and the city sleeps, I'm waiting f  
or  
Any little bit of something good, something worth fighting for  
I don't wanna live regretting, thinking I could have been more  
Cause I care, I, I, I care

So people, happy getting by  
Don't they wanna be more  
Or are they bad in time  
Now I see the city lights  
Right outside my door  
They could never be too pride  
I couldn't ask for more

Everytime the lights go down and the city sleeps, I'm waiting f  
or  
Any little bit of something good, something worth fighting for  
I don't wanna live regretting, thinking I could have been more  
Cause I care, I, I, I care

I, I, I care  
I, I, I care  
I, I, I care  
I, I, I care  
I, I, I care  
I, I, I care  
I, I, I care  
I, I, I care
