

When The Crazy Kicks In

Francesca Battistelli

Here I go tip toe into the kitchen
And don't you know, crash goes the coffee cup
My only chance to be still and listen
Lord, don't let, don't let the kids wake up
A little time with You, the only way to get me through the day

Oh, come meet me in this moment
Before it all gets going
And these plates start to spin
And the crazy kicks in
A circus of distractions
Is just about to happen
I'll be ready when
The crazy kicks in

Pushed and pulled by a thousand expectations
And all the roles that I'm supposed to play
To hit the ground, running's a temptation
But I have learned this lesson the hard way
A little time with You, the only way to get me through the day

You got me, where You want me, even through the highs and lows
You know me, and You hold me, and You show me that You'll never
let me go

Oh, I'll be ready when
Oh, the crazy kicks in
