

# Song For The Suspects

Franco

One love, jah love  
Come and feel the vibe  
He's given us the herb  
Rising from under the earth  
With soul we can unite  
So give me and pass me the light  
Throw away all your hate come, come with me

Well I see jah coming  
So come gather round my children  
Well I and I me try  
To never let the fire die  
So don't break the cipher  
Be part of the unbreaking circle my friend  
Throw away all your hate come jah with me

Another new day to

Understand as much as we can  
As much as we can understand the love  
We're high everywhere, we float in the air  
We smoke and we float in the air of love

We're refillin' to jah brim  
Well we'll see wa-wa-wa-wa-well yeah  
We're refilling love within  
Jah will see wa-wa-wa-wa-well yeah

Understand as much as we can  
As much as we can understand the love  
We're high everywhere, we float in the air  
We smoke and we float in the air of love

Divided and we fall apart  
I'll seal the hurt  
We undivided  
Gather all we smoke dem spliff again  
We free again, in peace again

I knew and the world,  
That herb was created for the use of man.  
Herb was here before man,  
So that means if man can control  
Quietly the laws of who created herb,  
Because herb is not an illusion  
It is creation and it was created by a divine man  
For divine purposes  
Rastafari

Understand as much as we can  
As much as we can understand the love  
We're high everywhere, we float in the air  
We smoke and we float in the air of love
