

To Survive

Franco

Don't you worry
About a thing
Life is full of lies as usual

They can't touch I
Don't ever touch I
I say, believe in what is real

Learn a thing about respect
Wash away negativity
Throw away your sorrows
Believe in how you feel

To survive
We pick up all the pieces
To survive
Learn from our mistakes
To make it magical, less visual
Freedom

Got my forty ounces to freedom
Won't you come go my away
We'll make it today

Got my quarter pound back to freedom
Floating along the way
Come and play
And we'll make a man

To survive
We pick up all the pieces
To survive
Learn from our mistakes
To make it magical, less visual

Top of the world
We'll be alive climb into the sky
Won't be the same night, out of control

Top of the world
We'll be alive climb into the sky
Won't be the same night, out of control

Top of the world
We'll be alive climb into the sky
Won't be the same night, out of control

Top of the world
We'll be alive climb into the sky

To survive
We pick up all the pieces
To survive
We learn from our mistakes
To make it magical, less visual

To survive

We pick up all the pieces
To survive
Learn from our mistakes
To make it magical, less visual

To survive
Pick up all the pieces
To survive
Learn from our mistakes
To make it magical, less visual
