

# At the End of the World

Frank Black

He came from the north  
On a late night comedy show  
At the end of the world  
The cameras they rolled to the flow  
Candy went and blew my mind today  
It was apparently normal  
Now he's going to spend some time away  
I feel so abnormal  
Candy went and blew my mind today  
At the end of the world  
Down in Durango  
I said pretty please  
Candy, you can't go  
The sun came up  
Less one ray  
Candy went and blew my mind today  
It was apparently normal  
Now he's going to spend some time away  
I feel so abnormal  
Candy went and blew my mind today  
He came from the north  
On a late night comedy show  
Near the end of the world  
The cameras they rolled to the flow
