

Bad Harmony

Frank Black

We don't know what we're talking about
That's just words in our libretto
I don't know if the some of our stretto
Will end up a terrible shout
We left the ground and we floated above this town
That never got better
We got drowned in the sea of love
And I know that it's gonna get wetter
Bad harmony
We're like bad harmony
We're a couple wannabe's
Who do not know what they are doing
We're like bad harmony
We're like bad harmony
We are good company
Going down that road to ruin
I hope we will better
I hope we will better
We don't know what we're talking about
That's just words in our libretto
I don't know if the some of our stretto
Will end up a terrible shout
Bad harmony
We're like bad harmony
We're a couple wannabe's
Who do not know what they are doing
We're like bad harmony
We're like bad harmony
We are good company
Going down that road to ruin
I hope we will better
I hope we will better
I hope we will better
