

# I Could Stay Here Forever

Frank Black

See the scheming behemoth  
Licking salt in their cave  
Being together is their zenith  
It's how they behave  
Now we're hanging in tandem  
Six trillion miles a year  
How can direction be random  
When you are so near  
I could stay here forever  
I could stay here forever  
And I'm never bored with this all aboard  
I could stay here forever  
We've got some bills to pay  
And when we pay them off  
Maybe we'll get away  
But if not, so what?
