

The Creature Crawling

Frank Black

The creature crawling don't know when he'll arrive
Don't know if creature is dead or alive
All of God's creatures have the will to survive
Did you know about that?
Did you know about that?
Did you know about that?
The creature crawling
The creature crawling and he's coming up the road
He's crawling over to your area code
Crawling through the grass of your little abode
Did you know about that?
Did you know about that?
Did you know about that?
Whatcha gonna say?
Whatcha gonna do?
What goes around it comes around
One fine day
Look around
There will be nothing but you
