Frank Black

Oh Pacoima what you give to me? Little heartbreaker mercy me Her eyes are green and her hair is gold Desert day turn to evening cold I've seen you some but I know I know that it's the end You're hanging 'round the farewell bend You were broken and I fixed you up I turned your weeds into buttercups You were lost now you know where it's at You were a little thin now you're a little fat You gave me love and though I know That it was not pretend I've seen you 'round the farewell bend Oh Pacoima what you give to me? Little heartbreaker mercy me My eyes are red, my mood is black I called your name and you didn't look back Where are you going And who did you befriend? I've seen you 'round the farewell bend Where are you going And honey, who did you befriend? I've seen you around the farewell bend (3x)
