

Wanderlust

Frank Black

When the wheels hit the road
When cryin' mode
Makes you feel on the brink
'T is of you that I think
When the plane takes me far
And you are goin' insane
So it seems
'T is of you that I dream
When the ship leaves the bay
And you stay in the slip
Far behind
'T is you on my mind
When the train takes me far
And you are going insane
Like you're caught
You're in my every thought
When my shoes start to walk
And you're not out and blue
It is you that I love, it is you
It is you that I love
