

You Never Heard About Me

Frank Black

I had heard nobody singing and I had heard
No rock and roll, it was the kind of my upbringing
That's right, now maybe you will see
You never heard about me, about me
Well, you can write a novel and you can be a rise
You can write me something awful
That's right, money back guarantee
You never heard about me, about me
Well I heard your body singing and I heard
Your rock and roll and I do not get the meaning
That's right, absolutely definitely, you never
Ever heard about me, about me, about me, about me
