

# Come Waltz With Me

Frank Sinatra

Before we say good-bye forever  
Come waltz with me, come waltz with me - once more  
Before we let love die forever  
Come waltz with me, the way we waltzed - before

Before our little world, just crumbled and fell  
And tumbled, like a house of cards - to the floor

Before I'm left to sigh forever  
And haunt the past - give me this last - encore  
Oh darling come and waltz with me - once more
