It Started All Over Again

Frank Sinatra

It started all over again the moment I looked in your eyes
It started all over again, the thrill we can never disguise
The day that we parted, so broken hearted, will never return again

Dreams I've delayed, promises made are starting anew just for y ou

It started all over again the moment I held you so tight It started all over again when we kissed away the night till da wn's early light

Now we're together, sweethearts forever, we'll build our romanc e anew

It started all over again the moment I looked at you

[instrumental]

It started all over again the moment I held you so tight It started all over again when we kissed away the night, the dawn's early light

Now we're together, sweethearts forever, we'll build our romanc e anew

It started all over again the moment I looked at you
