

Our Town

Frank Sinatra

You will like the folks you meet - in our town
The folks you meet on any street - in our town

Pick out any cottage - white or brown
They're all so appealing - with that lived in feeling

You will like the shady lanes - in our town
The music of the passing trains - in our town

You will lose your heart - I promise you
In this - our two-by-four town
Welcome - on the door town
If you'll - make it your town too
