## **Something Wonderful Happens In Summer**

## **Frank Sinatra**

Something wonderful happens in summer When the sky is a heavenly blue You fall in love - you fall in love With someone who loves you too

Something wonderful happens in summer When the moon makes you feel all aglow You fall in love - you fall in love You want the whole world to know

You carve initials on a tree
You kiss and exchange a ring
June and July go by
Your heart sings: "ting-a-ling-a-ling"

Something wonderful happens in summer
And it happens to only a few
But when it does - yes when it does
You'll feel wonderful - it happened to you
