

# You Turned My World Around

Frank Sinatra

Walkin' lonely streets, lookin' for a sign  
Livin' lonely dreams, life with no design  
Like lonely people do, livin' in the past  
Only findin' love that didn't last  
Then the shadows of my life felt the sun and saw your face  
As your love fell all around me making perfect time and space

Then you turned my world around  
When you held out your hand  
You turned my world around  
Bringin' love to a lonely man

Now I walk with you, Spring has come at last  
No more lonely dreams, they're all in the past  
And each day knows the joy that sharing love can give  
Love's the only life that we can li-ive  
Now the shadows of my life feel the sun, I see your face  
As your love falls all around me making perfect time and space

And you turned my world around  
When you held out your hand  
You turned my world around  
Bringing love to a lonely man
